

Quality Policy

Mission

We transform our Customer`s ideas into simple and safe solutions by fulfilling individual business challenges in the power supply industry along the entire chain: from generation to consumption

Strategic Objective

SVEL is the leader, reliable partner and absolute authority in implementation of the largest energy projects in EMEA and APAC

Principles that guide us to Strategic Objective:

- We explore demands and expectations of our Customers and fulfill them**
We stand for the committed Customers that value our relationship
- Company's Employees – value #1**
We aim at creating the required conditions for every Employee so they can enjoy working and drive to fulfil their potential
- Eliminate root causes of failures, not only consequences**
We admit our mistakes, analyze, and eliminate root causes
- Every step must be efficient**
Our decisions are based on theoretical knowledge, professional experience, and objective data
- Our Suppliers are the core of the quality of our products**
Only enterprises, which meet our requirements for product quality, delivery time, and prices, can become our Suppliers
- There is no limit to perfection – any work can be completed even better**
Continuous improvement through training and development of our Employees is the key to our success

Top management demonstrates commitment to ISO 9001:2015 Quality Management System and applicable QMS standards, to manage and continuously improve their performance based on the above principles, as well as to comply with the applicable requirements of the Russian legislation, other applicable requirements and obligations, including needs and expectations of customers and other interested parties.
